IMPORTANT NOTICE: NEWSPAPERS & NEWSAGENTS CONSIDERED ESSENTIAL

Dear Retailers, Distributors, and Freight Contractors,

Most of you would have seen that various State Governments are considering implementing lock down control measures in response to COVID 19, including NSW over the coming days.

It is our understanding that Newsagents will be considered essential in the convenience category and will operate as normal.

News Corp Australia print sites will be maintaining the printing of products during this time.

That means for primary freight contractors, distributors and newsagents, operations will continue.

Events are changing fast and we will provide updates when needed.

Supply Changes

If you have changes to supply due to outlets not being open or any feedback on supply requirements due to sellouts including in supermarkets, your ongoing support is appreciated in informing us. For any changes to volumes please provide your feedback and requests by contacting our Retail and Distributor Support Team preferably via email

newsagents@news.com.au

or via phone on **1800 6397 00** (1800 NEWS 00)

Kind regards,

Michael Newell
